

AYCA KUMSAL AKAT

Frontend Developer Candidate | Software Developer Candidate

Izmir, Türkiye | aycakumsal1712@gmail.com | github.com/kumsal04 | Portfolio: kumsal04.github.io

PROFILE

Computer programming student at Izmir University of Economics, focused on web development and software projects. I develop user-oriented, responsive and well-documented projects using HTML, CSS, Bootstrap, JavaScript, JSON, Python, C#, MySQL and GitHub.

EDUCATION

Izmir University of Economics - Computer Programming

Expected Graduation: 2026

INTERNSHIP / EXPERIENCE

PR Yazılım - Web Development Intern | Summer 2025, 3 Months

Converted Figma designs into HTML/CSS layouts, rebuilt interfaces with Bootstrap, developed responsive pages and prepared an original web project. Gained experience in project structure, GitHub usage and technical documentation.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap 5, JavaScript, responsive design

Programming: Python, C#, basic backend logic

Data: JSON, localStorage, MySQL, Excel Dashboard

Tools: Git, GitHub, Figma, VS Code, PyCharm, XAMPP

PROJECTS

MiyHav Petshop & Adoption: Web project including petshop products, adoption pages, filtering, favorites and responsive UI.

GitHub: github.com/kumsal04/MiyHav-petshop-petSahiplenme

Vet Automation: Automation project for veterinary clinic patient, appointment and tracking processes. GitHub:

github.com/kumsal04/vet-otomasyon

Random User API Usage: JavaScript project for fetching API data, listing users and displaying details in the interface. GitHub:

github.com/kumsal04/Random-User-API-Kullan-m-

AyCafe Order Automation: C# automation project for cafe order processes. GitHub: github.com/kumsal04/aycafe

LANGUAGES

Turkish: Native

English: Developing level / technical reading

GITHUB & PORTFOLIO

My GitHub profile includes 11 public repositories covering web development, automation, API usage and course assignment projects.
